Employee Of the Month

Gussie Manigluck

Gussie is like an IT ninja and an IT fairy paired their DNA. She anticipates needs, makes recommendations to make your life better and comes to the rescue no matter what, no matter when. I recently danced with the Dark Side when my hard drive ran out of memory and the processor was (cue gasp) found to be spinning discs. She helped me order the right stuff, gave me a protocol of interim IT Band-aides and worked with a dreadful schedule to make it happen. I especially appreciated the counsel to the effect of, "Every hour you work on that machine without these upgrades is a roll of the dice." Sometimes, things have improved or upgraded when I wasn't looking; I'm not kidding.

The IT team is invaluable and I appreciate Raymond's leadership. Please, Raymond – treat Gussie like the goddess she is because I don't want an IT world without Gussie in it.
